PANZER GENERAL™

MUCH MORE THAN A WARGAME!

Here's a fun and innovative strategy game that looks as good as it plays! Assume the role of a German General with a fresh command in Poland. If your army is successful, you build prestige and keep your experienced core group of units as you advance. Do well and you could end up on the shores of England by 1940, or in America by 1943! Do badly and you'll end up in a desperate defense of Berlin as early as 1939!

PANZER GENERAL features a campaign game and 35 progressive scenarios which can be played independently as either side. Choose from over 350 unit types — from Tiger tanks to B-17 Flying Fortresses.

Authentic WWII combat photography and film footage is used between combat scenarios to heighten the effect.

Super-VGA graphics and an intuitive point-and-click interface leave you with only one thing to do — enjoy the game!
